## EDUCATION

University of Nevada, Las Vegas Honors College

*Expected Graduation May 2028*

*Bachelor of Science: Computer Science*

GPA: 3.59 / 4

**Relevant Coursework:** Data Structures & Algorithms (Python/C++), Computer Organization, Calculus I–II, and Computational Linear Algebra.

## TECHNICAL SKILLS

**Languages:** JavaScript, Python, C++, Java, SQL, HTML/CSS

**Frameworks & Tools:** React, Node.js, Express.js, Supabase, PostgreSQL, MongoDB, AWS, Git

**Licenses & Certifications:** [AWS Certified Cloud Practitioner](#), [AI Fluency Framework & Foundations](#), [Claude 101](#)

## PROJECTS *(Full Portfolio)*

[makeapost.it](#) | *Full-Stack Social Posting Platform*

- Built a collaborative bulletin board web app with **React** and **Supabase/PostgreSQL**, allowing users to create, customize, and place virtual post-it notes in real time
- Implemented **OAuth 2.0 authentication**, persistent note storage, and live updates to support secure multi-user interaction and scalable data synchronization

[ScholarChips](#) | *Gamified Attendance Platform (Rebel Hacks 2026, UNLV Hackathon Submission)*

- Developed a full-stack attendance platform using **React, Node.js, Express, and Supabase/PostgreSQL** that rewards students with redeemable virtual points for consistent attendance
- Built authentication, attendance tracking, and real-time data updates to support gamified engagement for student events and campus activities
- Collaborated in a hackathon setting to design and prototype the application under time constraints for **Rebel Hacks 2026**

[rysuri.com](#) | *Full-Stack Web Application*

- Built and deployed a personal portfolio web application using **React, MongoDB, AWS Amplify, and API Gateway** to showcase projects, technical skills, and interactive site features
- Implemented a comment and contact system using **AWS Lambda, API Gateway, and MongoDB**, including **AI-based moderation** to automatically review user-submitted comments before publication

## WORK EXPERIENCE

**Website Developer**

*July 2024 - Present*

*Calderon Law*

*Las Vegas, Nevada*

- Built and maintained a React-based website, [calderonlaw.com](https://calderonlaw.com), for a local law firm, deploying updates through AWS Amplify
- Improved **SEO, accessibility, and mobile responsiveness**, while refining site content and navigation to better support usability for clients with **English as a second language**

**Mathematics Tutor**

*Jan 2025 - Nov 2025*

*Freelance*

*Henderson, Nevada*

- Provided one-on-one tutoring in **algebra and precalculus**, helping students strengthen problem-solving skills and understanding of core mathematical concepts
- Explained complex topics through personalized instruction, guided practice, and targeted support for coursework and exams

## ACTIVITIES AND LEADERSHIP

**Software Engineering Club** | Member, Chief Marketing Officer

*Jan 2026 – Present*

- Lead marketing and outreach for a **150+ member** student organization, promoting workshops, events, and software engineering initiatives
- Create digital content and campaigns to increase student engagement and club visibility

**RebelHacks** | Board Member

*May 2026 – Present*

- Support marketing, branding, and event planning for the next RebelHacks hackathon, helping scale the event to **~200 applicants and 40+ judges**
- Design promotional assets and event materials to improve visibility, participant experience, and event branding
